What is a Community of Practice? [Example](#)

A Community of Practice (CoP) workspace provides a web-based collaborative environment where members of a group use shared information and administrative and communications tools to conduct business, manage a project, keep abreast of important group issues and solve group problems. You can choose your CoP capabilities, revise its structure, and manage your content. [\[Learn More ... \]](#)

We can create a CoP for you with the following capabilities:

- Document posting/sharing (searchable)
- Discussion area (searchable)
- CoP points of contact email directory
- Search of CoP documents and selected web sites
- Knowledge owner control/update of web links on CoP pages

[Zip+4 Lookup](#)

We can see a benefit to the requisitioning and shipping community in having a CoP on DOD Activity Address Codes (DODAACs). Currently each branch of service establishes and maintains DODAACs for their units and this data is fed to the Defense Automatic Address System Center (DAASC). We encourage all our MAJCOM DODAAC monitors to become members of the CoP and create a forum for discussion regarding additional requirements and enhancements to DODAAC information.
